

Bringing the worlds best chillers to Australia

MODEL:

SD-A624-ENV3H-SS

QUICK INFO

SCRATCH & DENT This unit was slightly damaged in transit - There a few minor grazes and dents on the top, left, and right sides. The rear panel if this unit has been pushed out, but would not be visible under a bench.

This fridge is otherwise in perfect working condition.

The Rhino Envoy alfresco fridge range are the most energy efficient on our market, units have 316 marine grade stainless steel, GMCC compressor, quiet inner fans, energy saving German rear fans and German Danfoss ECO controller and heated glass, just to mention a few features. Units will perform in the hottest and most harsh climates, perfect for us in ambient temperatures 43°C plus.

At 575mm deep you fit an extra row of drinks than all other alfresco units on market, the shelving height adjustments are small making any size bottle easy to fit without losing valuable froffy space. Blue/White switchable LED is a great feature and the strong locks with special tight spaced 'no topple' shelves help to finish off the perfect alfresco fridge.

PARTS AND ENERGY INFO

- R600 100% ozone safe gas
